## Fund Manager comments

Echiqueur World Next Leaders A turned in a positive monthly performance of 1.02% and of 4.85% year-to-date.

Equity markets continued to rise in March, with the value style outperforming to some extent. Against this backdrop, the fund generated a positive performance, below that of its benchmark index. Among the top contributors to performance, GENMAB, NICE and EDENRED are progressing in line with their good results published in February. All three companies expect double-digit growth in 2024. Among the biggest detractors from performance, DINO POLSKA published results below expectations against a backdrop of disinflation in Poland. As for DYNATRACE, the market is still digesting the downward revision to sales growth at constant exchange rates, linked to the timing of the signing of major contracts. Finally, JOLLIBEE's share price fell without any particular explanation, as its results were satisfactory. This company is also expecting double-digit growth in 2024. The only notable change this month was the opening of a new position in the Chinese online recruitment platform KANZHUN. The portfolio remains positioned on quality secular growth stocks.

## For more information

The fund is invested on financial markets. It presents a risk of capital loss. Past performance is not a reliable indicator of future performance and is not constant over time. Performance of the fund and the benchmark are calculated net of income (as of the 2013 financial year). Until 2012, however, the performance of the benchmark did not include income.
