Fund Manager comments

Echiquier Agenor SRI Mid Cap Europe G turned in a positive monthly performance of 1.67% and of 9.03% year-to-date.

April was dominated by the start of Q1 2023 releases as macroeconomic data continued to indicate a slowdown in the economy. Despite a satisfactory selection effect and a good start to the publication season, the fund slightly underperformed its index, penalised by its absence from the financial sector. Performance benefited from two takeover bids: DECHRA (bid by EQT, 46% premium) and SIMCORP (bid by DEUTSCHE BOERSE, 39% premium). On the results front, EDENRED and AAK published solid results that exceeded expectations. Among the disappointments, OVH was unconvincing with disappointing growth and margin figures. SARTORIUS was penalised by a delicate momentum in the Life Science sector for several quarters. We initiated a position in ASM INTERNATIONAL, a Dutch company that is a world leader in the fast-growing ALD deposition segment for semiconductors. In a slowing macroeconomic environment, we continue to favour companies with a defensive profile and solid fundamentals. The increase in takeover bids in the small and mid cap segment since the beginning of the year confirms the attractiveness of the asset class.
