Fund Manager comments

Echiquier World Equity Growth A turned in a positive monthly performance of 6.08% and turned in a negative performance of -9.94% year-to-date.

In what was one of the best months in a long time for markets, the fund more than kept pace. For the fund, it was surprisingly good despite having suffered disappointing earnings reports from such fund stalwarts as Microsoft, Alphabet and Amazon. Helping to offset these disappointments were excellent earnings reports from Mastercard and Visa. Also helping the fund were our Latin American investments, with double digit returns from Banorte, Credicorp, and FEMSA, and an above-average performance from Brazilian bank Itau Unibanco. Other stocks providing good performance during the month include UnitedHealth, Komatsu, Disney, and Keurig Dr Pepper. On the other hand, underperforming stocks, beyond the previously mentioned Microsoft, Alphabet and Amazon, included Taiwan Semiconductor, Estee Lauder and Diageo. No significant changes were made during the month. Our overall strategy remains intact as we navigate this time of significant inflation and central bank tightening by focusing on defensive and secular growth stocks.

For more information

The fund is invested on financial markets. It presents a risk of capital loss.

Past performance is not a reliable indicator of future performance and is not constant over time.

Performance of the fund and the benchmark are calculated net of income (as of the 2013 financial year). Until 2012, however, the performance of the benchmark did not include income.

This commercial document aims to inform you in a simple way on the fund's characteristics.

For more information about risks and fees, please refer to the KIID, prospectus or contact your usual representative.
