Lower risk

Highest risk

This indicator represents the risk profile shown in the KID. The risk indicator is based on the assumption that you hold units for 5 years. Warning: The real risk can be very different if you opt for an exit before this period, and you could get less in return.

Recommended investment horizon

5 years

Fund Manager comments

Echiquier World Equity Growth I turned in a positive monthly performance of 0.29% and of 8.01% year-to-date.

The fund outperformed its benchmark in April. The macroeconomic environment remained particularly gloomy following the fears generated by the banking sector in March. Among the best contributors to performance, MICROSOFT, MASTERCARD and ASTRAZENECA published good quarterly reports. Conversely, our semiconductor stocks, TSMC and ASML, struggled, pointing to an unfavourable macroeconomic environment. KEURIG DR PEPPER's coffee business was negatively impacted by the improved mobility trends. No major changes were made, as the fund remains oriented towards secular and defensive growth stocks.

Fund Managers: David Ross, Louis Bersin, Nina Lagron

For more information

The fund is invested on financial markets. It presents a risk of capital loss.

Past performance is not a reliable indicator of future performance and is not constant over time.

Performance of the fund and the benchmark are calculated net of income (as of the 2013 financial year). Until 2012, however, the performance of the benchmark did not include income.

This commercial document aims to inform you in a simple way on the fund's characteristics.

For more information about risks and fees, please refer to the KID, prospectus or contact your usual representative.

4 stars in Morningstar category Global Large-Cap Growth Equity as at 31/03/2023.
