Fund Manager comments

Echiquier Positive Impact Europe I turned in a positive monthly performance of 2.06% and of 8.31% year-to-date.

The markets continued their rally in March, with a high degree of style rotation, with value sectors such as property, energy and financials outperforming, while technology, luxury goods and consumer staples took profits. Against this backdrop, the fund underperformed its benchmark. Among the top contributors, NOVO NORDISK held a management committee meeting which met all expectations, particularly with regard to increasing production capacity and future growth drivers. Esker is benefiting from the CEO's comments that he is no longer ruling out a takeover by a private equity fund. We also have exposure to insurance companies such as ALLIANZ and MUNICH RE. On the other hand, our technology positions suffered, with SOITEC once again revising its targets downwards due to ongoing destocking in the wireless segment and INFINEON penalised by the Chinese authorities' desire to develop local production of chips for its electric vehicles. Over the month, we strengthened our positions on LEGRAND, SAP and WISE, took profits on MUNTERTS and SPIE, and eased our positions on ASTRAZENECA and CAREL, which are suffering from the sharp slowdown in the heat pump market.

Solutions Score: This dimension scores the contribution of a company in terms of revenue from its products and services that address any of the nine business-oriented SDGs, as defined by La Financière de l'Echiquier's methodology 5 points = 10% of sales contributing to SDGs.

Initiatives score: This dimension scores a company on the significant initiatives it implements that contribute towards the SDGs. Points are attributable for different initiatives across all seventeen SDGs, such as investment in research, tiered product pricing for lower income customers or recycling initiatives.

SDGs score: Solutions score + Initiatives score
