Fund Manager comments

Echiquier World Next Leaders K turned in a negative monthly performance of -1.76% and turned in a positive performance of 6.63% year-to-date.

April was a difficult month overall for growth mid-caps. The macroeconomic environment remained particularly bleak following the fears generated by the banking sector in March. Among the more negative contributions, CLOUDFLARE lowered its growth outlook for the year, TRIMBLE continued to suffer from its cyclical growth profile and our spirits stocks BECLE and REMY COINTREAU suffered from the slowdown in US demand. On the positive side, EDENRED reported results well above expectations while YUM! BRANDS benefited from the good figures published by other fast-food players. During the month, we sold our positions in ALTERYX, TRIMBLE, CLOUDFLARE and SOLAREEDGE. We also initiated positions in healthcare digitalization specialist VEEVA and an emerging Asian fast-food player called JOLLIBEE. Given the risks facing the global economy, we continue to focus on companies with a resilient growth profile.
