horizon

5 years

## Fund Manager comments

Echiquier Climate & Biodiversity Impact Europe A turned in a positive monthly performance of 3.86% and of 4.96% year-to-date.

The markets continued their rally in March, with a high degree of style rotation, with value sectors such as property, energy and financials outperforming, while technology, luxury goods and consumer staples took profits. Against this backdrop, the fund performed in line with its benchmark index. Among the top contributors, NOVO NORDISK held a management committee meeting which met all expectations, particularly with regard to increasing production capacity and future growth drivers. IBERDROLA unveiled an ambitious strategy to accelerate growth in regulated networks. Our exposure to financials is also there. At the other end of the scale, AKER CARBON CAPTURE has been penalised by the loss of a tender in the UK, while our technology positions have suffered, notably SOITEC, which is once again revising its targets downwards due to the ongoing destocking in the wireless segment, and INFINEON, penalised by the Chinese authorities' desire to develop local production of chips for its electric vehicles. Over the month, we strengthened ASHTEAD, LEGRAND, EON, SAP and BNPPARIBAS, took profits on SCHNEIDER ELECTRIC and SPIE, and lightened our load on ASTRAZENECA, VAISALA and NESTE.

Fund Managers: Adrien Bommelaer, Luc Olivier, Paul Merle

# Climat & Biodiversity indicators

ECHIQUIER CLIMATE & BIODIVERSITY IMPACT EUROPE A

MARCH 2024 (data as of 03/31/2024)

## Fund climate & biodiversity profil

	Fund		Ref. Indic.	
	Data	Coverage	Data	Coverage
CBM score	<b>64%</b>	100%	64%	35%
Temperature	<b>2.0°C</b>	100%	2.9°C	99%
MSAppb*	<b>37</b>	100%	59	98%
Eligible Green Share	<b>74.7%</b>	53%	56.0%	37%
Physical risks	<b>27.5</b>	100%	26.4	98%

**Climate & Biodiversity Maturity (CBM) Score:** score reflecting the level of progress (measured in %) of the company in taking into account the climate and biodiversity issues it faces and will face in the future.

**Temperature:** Temperature: a measure of the alignment of portfolio companies with the reference trajectory defined by the IEA.

**MSAppb\*:** biodiversity indicator expressing the average loss of species on a standardised area.

**Eligible Green Share:** represents the share of the company's turnover that comes from activities eligible under the European taxonomy.

**Physical risks:** measures the exposure of companies to different climatic hazards. The score is based on 100. A score of 100 represents maximum exposure.
