Fund Manager comments

Echiquier Agenor SRI Mid Cap Europe Fund K turned in a positive monthly performance of 1.05% and of 0.79% year-to-date

Small cap indices continued to underperform in February, wiping out the outperformance of the last two months of 2023. Uncertainty over the pace of monetary policy easing in 2024 and momentum in favour of large caps explain this divergence. The fund rebounds, with a performance close to that of its benchmark index thanks to good publications. BE SEMI (+48bp) reported an acceleration in order intake in Q4 thanks to AI chips. MONCLER (+36bp) reports better-than-expected results and reassures on 2024. ALK ABELLO (+18%), which was recently initiated, reports good figures with a high level of confidence for 2024. However, our long-duration stocks, which are sensitive to changes in long-term interest rates, are underperforming: NEOEN -13%, SHURGARD -7%. EDENRED (-19% -53bp) corrected in reaction to a controversy over the award of a public contract in Italy, bringing its valuation down to an eight-year low. This month, we strengthened our positions in ZEISS, ALK ABELLO and NEOEN following solid publications and participated in the SARTORIUS STEDIM capital increase, while reducing our positions in CRODA and EDENRED.
