### Fund Manager comments

**Romain Ruffenach**

“ In December, your fund benefited from CVC's takeover bid for insurance broker APRIL. This transaction would value the insurer at EUR 900 million, 19 times its results or 9.6 times its operating profit, representing a premium of 75% compared with October's share price. With Echiquier Value Euro Fund having held shares in APRIL for a number of years, the transaction validates your fund's discipline and unchanging philosophy. Despite a difficult year in 2018, your fund took advantage of the market correction to acquire new discounted stocks such as TF1, SPIE (industrial services) and DRAEGERWERK (medical equipment). As with many of the securities in the portfolio, the valuation levels for these stocks incorporate a global recession scenario. They should therefore hold up well if this adverse situation materialises in 2019.

Echiquier Value Euro Fund A EUR turned in a -6.64% monthly performance and a -30.59% performance year to date.
