This indicator represents the risk profile shown in the KID. The risk indicator is based on the assumption that you hold units for 3 years. Warning: the real risk can be very different if you opt for an exit before this period, and you could get less in return.

Recommended investment horizon

3 years 

Fund Manager comments

Echiquier Allocation Flexible G turned in a positive monthly performance of 1.88% and of 3.09% year-to-date.

The portfolio benefited from buoyant markets. Bond exposure was maintained close to its previous month's level, while equity exposure was reduced very slightly and remains balanced. The main adjustments concerned the style of equities in the portfolio, where the 'quality' factor was slightly reduced in favour of less highly valued stocks.

Fund Managers: Enguerrand Artaz, Clément Inbona, Alexis Bienvenu
