Fund Manager comments

Echiquier Major SRI Growth Europe Fund B turned in a negative monthly performance of -2.42% and turned in a positive performance of 12.04% year-to-date.

The markets corrected in August following fears about the Chinese economy and a rise in long-term interest rates in the wake of the publication of solid macroeconomic figures in the United States and continued hawkish rhetoric from central bankers. Against this backdrop, the fund performed in line with its index in August. Among the top contributors, NOVO NORDISK published very positive preliminary results for its SELECT clinical trial, showing that Wegovy, its anti-obesity treatment, reduces the risk of cardiovascular accidents by 20%. In contrast, cyclical stocks, in particular our exposure to semiconductors such as INFINEON and ASML, and luxury goods such as LVMH, suffered for no specific reason. Over the month, we added to weakness in INDITEX, FERRARI, STRAUMANN, PARTNERS, INFINEON, DSV and WOLTERS KLUWER, and reduced our positions in ALLIANZ, SIEMENS HEALTHINEERS, ASSA ABLOY, VISA and ACCENTURE. We also participated in COLOPLAST's capital increase to finance the acquisition of KERECIS, an Icelandic company that has invented a wound-care technology based on fish skin.
