Warning

You are about to buy a product that is not simple and can be difficult to understand.

What is this product?

Type | Subfund of a SICAV (open-end investment company) governed by French law. Each shareholder has co-ownership rights on the SICAV's net assets in proportion to the number of shares held.

Term | The Fund was created on 06/01/1995 and its expected term is 99 years. This term may be extended or the Fund can be dissolved early on the initiative of its Board of Directors. The terms and conditions for extension or dissolution are described in more detail in the articles of association of the SICAV. The Fund has no maturity date.

Objectives | The objective of the ECHIQUIER PATRIMOINE subfund is to outperform its benchmark, net of management fees, which is the composite index: 12.5% MSCI Europe NR + 67.5% Iboxx 1-3 years + 20% €STER.

The management of the UCITS is based on an active and discretionary strategy. It combines the use of financial instruments (equities, bonds, negotiable debt securities) and derivative instruments.

Echiquier Patrimoine invests a minimum of 60% of its assets in bonds or negotiable debt securities from the Europe region (European Union, European Free Trade Association, and the United Kingdom) and, on an ancillary basis, a maximum of 10% in bonds from outside this region, including those issued by issuers from emerging countries.

At the time of acquisition and for monitoring purposes over the life of the securities, credit risk is assessed on the basis of in-house research and analysis by La Financière de l'Echiquier and using the ratings produced by agencies. The debt securities and bonds concerned are mainly securities rated at least BBB- (Investment Grade) by Standard & Poor's or equivalent or considered as such by the management team (maximum of 10% on unrated debt securities or securities deemed speculative and maximum of 15% on unrated bonds or bonds deemed speculative). The manager may also invest up to 40% of its net assets in subordinated bonds from the banking, insurance and corporate sectors, of which 10% maximum contingent convertible bonds (so-called "coco" bonds). Up to a maximum of 25% of the UCITS's assets may be exposed to European equities (EU, EFTA or the United Kingdom) in any business sector, with the possibility of investing up to 15% of its net assets in equities outside this region (including emerging countries).

The UCITS may trade in derivatives to:

- Reduce the portfolio's exposure to equity markets, foreign exchange and interest rate risks.
- Exceptionally expose the portfolio to currency, interest rate and equity risks. The UCITS does not, in any event, intend to implement a strategy of over-exposing the portfolio to these various risks.

Exposure to non-euro currencies may not exceed 10% of the assets. Other information: the portfolio management team systematically includes an extra-financial approach in building the portfolio, although extra-financial criteria are not a determining factor in investment decisions.

Cut-off time for centralising subscription/redemption orders | The investor may obtain a redemption on request every business day. Redemption requests are centralised each market trading day before 12 p.m. (Paris time) with our centralising agent BNP Paribas SA and executed on the net asset value calculated on the closing price on the day they are centralised.

Valuation frequency | The net asset value is calculated daily except on days when the Paris stock exchange is closed and on French public holidays.

Intended retail investor | Potential investors are aware of the risks inherent in holding this type of product and have an investment horizon corresponding to its recommended investment period. This fund may not be suitable for investors who plan to withdraw their money before 2 years. The fund is available to US Persons (more information can be found in the prospectus).

Depositary | BNP Paribas SA

The prospectus, the annual reports and the most recent interim documents, as well as any other practical information, and in particular where to find the most recent price of the shares are available on our website www.lfde.com or upon simple written request, free of charge, at: La Financière de l'Echiquier 53 avenue d'Iéna, 75116 Paris.

What are the risks and what could I get in return?

Risk indicator

The risk indicator is based on the assumption that you hold the shares for 2 years.

 The real risk can be very different if you opt for an exit before this period, and you could get less in return.

The synthetic risk indicator makes it possible to assess the level of risk of this product compared to others. It indicates the likelihood that this product will incur losses in the event of market movements or if we are unable to pay you.

We have classified the product in risk class 3 out of 7, which is a low to medium risk class. In other words, the potential losses linked to the product's future results are low to medium and, if the situation deteriorates in the financial markets, it is unlikely that our ability to pay you will be affected.

Risks materially relevant and not taken into account in the indicator:
Credit risk.

As this product does not provide protection against market fluctuations, you may lose some or all of your investment.

Performance scenarios I

The figures shown include all costs of the product itself, including the portion paid to your advisor or distributor by La Financière de l'Échiquier. These figures do not take into account your personal tax situation, which may also affect the amounts you receive.

What you will get from this product depends on future market performance. Future market trends may change and cannot be predicted precisely. The unfavourable, moderate and favourable scenarios presented represent examples using the best and worst performance, as well as the average performance of the product over the past 10 years. Markets could move very differently in the future.

What happens if La Financière de l'Échiquier is unable to pay out?

The product is a co-ownership of financial instruments and deposits separate from the management company. In the event of failure of the latter, the assets of the product held in custody by the depositary will not be affected. In the case of failure of the depositary, the risk of financial loss for the product is reduced due to the legal segregation of the assets of the depositary and those of the product.

What are the costs?

The person who sells this product to you or who provides you with advice about it may ask you to pay additional costs. If so, this person will inform you about these costs and show you the impact of these costs on your investment.

Costs over time:

The tables show the amounts deducted from your investment in order to cover the different types of costs. These amounts depend on the amount you invest, the time you hold the product, and the product's return. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We assumed:

- that in the first year you will recover the amount you invested (annual return of 0%). That for other holding periods, the product changes as indicated in the moderate scenario.
- EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 2 years (Recommended holding period)
Total costs	€ 418	€ 609
Impact of annual costs (*)	4.22%	3.09% each year

(*) It shows the extent to which costs reduce your return annually during the holding period. For example, it shows that if you exit at the end of the recommended holding period, your average annual return is 2.09% before costs and -1.00% after this deduction.

We may share the costs with the person selling the product to cover the services they provide to you. This person will inform you of the amount.

Composition of costs:

One-off costs at entry or exit		If you exit after 1 year
Entry costs	3.00% of the amount you pay when you enter the investment. This is the maximum amount you will pay. The person selling the product will inform you of the actual costs.	EUR 300
Exit costs	We will not charge an exit cost for this product, but the person who sells the product can do so.	EUR 0
Recurring costs charged each year		
Management fees and other administrative and operating expenses	0.98% of the value of your investment per year. This estimate is based on actual costs over the past year.	EUR 95
Transaction costs	0.24% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the investments underlying the product. The actual amount varies according to the quantity we buy and sell.	EUR 23
Incidental costs taken under specific conditions		
Performance fees and incentive fees	15% including taxes of the Fund's outperformance, net of fixed management fees, relative to its benchmark index, provided the Fund's performance is positive and once the underperformance of the last 5 years has been fully compensated for. The performance fee is crystallised every year on 31 March. The real amount varies depending on the performance of your investment. The total cost estimate includes the average over the past 5 years.	EUR 0
