

## Objective

This document contains key information about the investment product. It is not a commercial document. This information is provided to you in accordance with a legal obligation, to help you understand the nature of this product and what risks, costs, potential gains and losses are associated with it, and to help you compare it with other products.

## Product

### ECHIQUIER ARTIFICIAL INTELLIGENCE - B Share (ISIN: LU1819480192)

#### Subfund of the Echiquier Fund mutual fund (SICAV) managed by La Financière de l'Echiquier

**Name of Initiator** | La Financière de l'Echiquier

**Website** | [www.lfde.com](http://www.lfde.com)

**Contact** | Call + 33 (01) 47 23 90 90 for more information

**Competent Authority** | La Financière de l'Echiquier is authorised in France and regulated by the Autorité des Marchés Financiers.

The Echiquier Fund SICAV is authorised by the Commission de Surveillance du Secteur Financier, the authority responsible for the supervision of La Financière de l'Echiquier with regard to this key information document.

**Production date** | 01/01/2023

## Warning

You are about to buy a product that is not simple and can be difficult to understand.

## What does this product consist of?

**Type** | Subfund of a SICAV (open-end investment company) governed by Luxembourg law. Each shareholder has co-ownership rights on the SICAV's net assets in proportion to the number of shares held.

**Duration** | The Fund was created on 20/06/2018 and has no expected end date.

**Objectives** | Echiquier Artificial Intelligence is a dynamic subfund seeking long-term performance via exposure to growth stocks in international markets. In particular, the subfund seeks to invest in securities that develop Artificial Intelligence and/or stocks that benefit from it.

The subfund's objective is to outperform its benchmark, MSCI World Index, net of management fees, over the recommended investment period. However, the subfund does not aim to replicate the benchmark's performance, as the portfolio's composition may differ significantly from that of the benchmark.

The UCITS implements active and discretionary management based on a rigorous bottom-up stock-picking process. The purchase and sale prices are determined for each equity selected based on a medium-term valuation. Consequently, some cases are subject to a very selective process based on quantitative and qualitative analysis. The subfund manager may also engage in trading activities with the aim of taking advantage of short-term market fluctuations.

The investment strategy aims to select stocks that participate in the development of Artificial Intelligence or those that benefit from the adoption of these technologies. The strategy will also include stocks whose activity is indirectly linked to the Artificial Intelligence sector (ecosystem, infrastructure, etc.). Depending on the manager's convictions, the portfolio's construction can lead to a concentrated portfolio (fewer than 50 stocks). The subfund has a minimum exposure of 60% to international equity markets and/or equity markets of eurozone and emerging countries. Equity market exposure from emerging countries shall be limited to 30% of net assets. The subfund will be exposed to companies of all capitalisation sizes.

The subfund reserves the right to invest up to 40% in fixed-income products. At the time of acquisition and for monitoring purposes over the life of the securities, credit risk is assessed on the basis of in-house research and analysis by La Financière de l'Echiquier and using the ratings produced by agencies. The eligible securities in question are deemed to

be investment grade, i.e., having a minimum Standard & Poor's rating of BBB- or equivalent or considered as such by the management team.

Financial derivative instruments, both traded on regulated markets or over the counter, can be used on an exceptional basis to:

- Hedge the portfolio against currency risk and against equity risk when the manager anticipates a significant deterioration in market performance;
- Occasionally expose the portfolio to equity risk during significant subscription transactions. The fund does not, in any event, intend to implement a strategy of over-exposing the portfolio to equity risk.

Furthermore, the portfolio management team systematically includes an extra-financial approach in building the portfolio, although extra-financial criteria are not a determining factor in investment decisions.

**Benchmark** | MSCI WORLD NET TOTAL RETURN (in EUR)

**Allocation of income** | Accumulation

**Cut-off time for centralising subscription/redemption orders** | The investor may obtain a redemption on request every business day. Redemption requests are centralised each market trading day before 10 p.m. (Paris time) with our centralising agent BNP Paribas SA Luxembourg and executed on the net asset value calculated on the closing price on the day they are centralised.

**Valuation frequency** | The net asset value is calculated daily except on days when the Luxembourg stock exchange is closed and on Luxembourg public holidays.

**Targeted retail investors** | Potential investors are aware of the risks inherent in holding this type of product and have an investment horizon corresponding to its recommended investment period.

**Insurance** | Not applicable.

**Maturity date** | This product has no maturity date.

**Custodian** | BNP Paribas SA Luxembourg

The prospectus, the annual reports and the most recent interim documents, as well as any other practical information, and in particular where to find the most recent price of the shares are available on our website [www.lfde.com](http://www.lfde.com) or upon simple written request, free of charge, at: La Financière de l'Echiquier, 53 avenue d'Iéna, 75116 Paris.

## What are the risks and what could this mean for me?

### Risk indicator

The risk indicator is based on the assumption that you hold equities for 5 years.

**Warning:** The real risk can be very different if you opt for an exit before this period, and you could get less in return.

The synthetic risk indicator makes it possible to assess the level of risk of this product compared to others. It indicates the likelihood that this product will incur losses in the event of market movements or if we are unable to pay you.

We have classified the product in risk class 5 out of 7, which is a medium to high risk class. In other words, the potential losses linked to the product's future results are medium to high, and if the situation deteriorates in the financial markets, it is likely that our ability to pay you will be affected.

### Risks materially relevant and not taken into account in the indicator:

**Credit risk I** Credit risk is the risk that the credit quality of an issuer will decline or that the issuer will default. The value of debt securities or bonds in which the Fund invests may fall, causing the Fund's net asset value to decline.

**Guarantee:** The capital initially invested is not guaranteed.

### Performance scenarios (amounts expressed in euros) I

What you will get from this product depends on future market performance. Future market developments are random and cannot be predicted precisely. The adverse, intermediate and favourable scenarios presented represent examples using the best and worst performance, as well as the average performance of the product over the past 10 years. Markets could move very differently in the future. The stress scenario shows what you could get in extreme market situations. This type of scenario is produced for an investment of between 1 and 5 years.

Recommended holding period: 5 years Example of an Investment: € 10,000			
Scenarios		If you exit after 1 year	If you exit after 5 years (Recommended holding period)
<b>Minimum</b>	As this product does not provide protection against market fluctuations, there is no guaranteed minimum return if you exit before 5 years. You may lose some or all of your investment.		
<b>Stress</b>	<b>What you could get after deducting costs</b>	<b>€ 3,340</b>	<b>€ 2,530</b>
	Average annual return	-66.63%	-24.04%
<b>Adverse</b>	<b>What you could get after deducting costs</b>	<b>€ 4,870</b>	<b>€ 11,950</b>
	Average annual return	-51.27%	3.63%
<b>Intermediate</b>	<b>What you could get after deducting costs</b>	<b>€ 10,920</b>	<b>€ 15,850</b>
	Average annual return	9.19%	9.66%
<b>Favourable</b>	<b>What you could get after deducting costs</b>	<b>€ 17,360</b>	<b>€ 28,750</b>
	Average annual return	73.56%	23.52%

The figures shown include all costs of the product itself, including the portion paid to your advisor or distributor by La Financière de l'Échiquier. These figures do not take into account your personal tax situation, which may also affect the amounts you receive.

This table displays the amounts you could obtain according to different scenarios and according to the following parameters:

- an investment of €10,000;
- and holding periods of 1 year and 5 years, the latter being equal to the recommended holding period.

These different scenarios indicate how your investment might behave and allow you to compare with other products.

The scenarios presented are an estimate of future performance based on past data on changes in the value of this investment. They are not an exact indicator. What you will get will depend on the evolution of the financial market and the length of time you will keep the investment or product.

## What happens if La Financière de l'Échiquier is unable to make payments?

La Financière de l'Échiquier is an asset management company approved and monitored by the Autorité des Marchés Financiers and must comply with organisational and operating rules, particularly in terms of capital. The Fund's assets are recorded in one or more bank accounts opened in the name of the Fund, which is the subject of segregation of assets from those of the management company. Consequently, the default of La Financière de l'Échiquier would not have an impact on the Fund's assets.

## What will this investment cost me?

The person who sells this product to you or who provides you with advice about it may ask you to pay additional costs. If so, this person will inform you about these costs and show you the impact of these costs on your investment.

### Costs over time (amounts expressed in euros):

The tables show the amounts deducted from your investment in order to cover the different types of costs. These amounts depend on the amount you invest, the time you hold the product, and the product's return. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We assumed:

- that in the first year you will recover the amount you invested (annual return of 0%). That for other holding periods, the product changes as indicated in the intermediate scenario.
- EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years (Recommended holding period)
<b>Total costs</b>	<b>€ 479</b>	<b>€ 2,254</b>
<b>Impact of annual costs (*)</b>	4.85%	3.27% each year

(\*) It shows the extent to which costs reduce your return annually during the holding period. For example, it shows that if you exit at the end of the recommended holding period, your average annual return is 12.92% before costs and 9.66% after this deduction.

We may share the costs with the person selling the product to cover the services they provide to you. This person will inform you of the amount.

#### Composition of costs:

One-off costs at entry or exit		If you exit after 1 year
Entry costs	3.00% of the amount you pay when you enter the investment. This is the maximum amount you will pay. The person selling the product will inform you of the actual costs.	EUR 300
Exit costs	We will not charge an exit cost for this product, but the person who sells the product can do so.	EUR 0
Recurring costs charged each year		
Management fees and other administrative and operating expenses	1.70% of the value of your investment per year. This estimate is based on actual costs over the past year.	EUR 165
Transaction costs	0.13% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the investments underlying the product. The actual amount varies according to the quantity we buy and sell.	EUR 13
Ancillary costs deducted under certain conditions		
Performance fees and incentive fees	15% including taxes of the Fund's outperformance, net of fixed management fees, relative to its benchmark index, provided the Fund's performance is positive and once the underperformance of the last 5 years has been fully compensated for. The performance fee is crystallised every year on 30 September. Total cost estimate includes average over the past 5 years	EUR 2

#### How long should I keep it and can I withdraw money early?

The recommended investment period is at least 5 years due to the nature of the assets underlying this investment.

Holding for a period shorter than the recommended period may not be in the investor's best interests.

You can request redemption of your shares on a daily basis. Redemptions are executed on a daily basis.

#### How can I make a complaint?

You may make a complaint about the product or behaviour (i) of La Financière de l'Échiquier (ii) of a person who provides advice on this product, or (iii) a person who sells this product by sending an e-mail or letter to the following persons, as the case may be:

- If your complaint concerns the person who provides you with advice on the product or who offers it to you, please contact that person directly.
- If your complaint relates more specifically to the product itself or the behaviour of La Financière de l'Échiquier, you can send a letter to the following address: La Financière de l'Échiquier - 53 avenue d'Iéna, 75116 Paris.

We invite you to consult the complaints handling procedure available on the company's website [www.lfde.com](http://www.lfde.com) for more information and in particular on the possibility of recourse to the Ombudsman of the Autorité des Marchés Financiers.
