## What is this product?

**Type** | Undertaking for Collective Investment in Transferable Securities - Fonds Commun de Placement (FCP), incorporated in France.

**AMF classification** | International equities

**Term** | The life of the product is 99 years. The Management Company may unilaterally dissolve the Fund by liquidation or merger. Dissolution may also take place in the event of the total redemption of the units or when the net assets of the product fall below the regulatory minimum amount.

**Objectives** | The objective of the Fund is to seek to outperform the global equity markets, net of charges, by investing in a portfolio of international stocks benefiting from developments and innovations in technology.

The MSCI World Net Total Return EUR benchmark index is used as an ex post performance benchmark. As the Fund is not an index tracker, its performance may differ significantly from this benchmark, depending on the management choices made.

The management of this Fund is discretionary and based on total independence from indices or business sectors. The Fund is actively managed.

At least 60% of the portfolio is invested in equities.

The Management Company reserves the possibility to invest up to a maximum of 50% of the Fund's net assets in small caps (companies with a market capitalisation below €500 million on acquisition) and/or mid-caps (market capitalisation between €500 million and €5 billion on acquisition).

The portfolio is permanently exposed to the equity risk between 60% minimum up to a limit of 110%.

This exposure is obtained either through direct investments on the equity markets, or via UCIs, or through the use of derivatives.

The fundamental analysis carried out by the management team is based on the following criteria:

- Analysis of the company's management
- Quality of its financial structure
- Visibility on its future earnings
- Analysis of the financial statements
- The growth prospects for its business
- The speculative nature of the security

The Fund's exposure to currency risk may go up to 100%.

Regarding debt securities, when they are rated by one of the three rating agencies used, the securities selected will have a minimum rating of BBB-/Baa3 (investment grade category) or a rating deemed equivalent by the Management Company.

The purchase or sale of a debt security is not based exclusively on the criterion of its ratings and is also based on an internal analysis of credit risks and market conditions.

The Fund may use derivative financial instruments, up to the amount of the assets, in order to take positions to hedge the portfolio and/or expose it to equity, index, currency and interest rate risks, in order to pursue its investment objective.

The sum of the market exposure resulting from the use of derivatives and directly-held financial instruments may not exceed 125% of the assets in terms of net leverage and 200% for the gross leverage.

The Fund may invest up to 10% of its net assets in units or shares of UCITS, AIFs governed by French law, or investment funds from European Union countries.

The Fund may invest in UCIs of the Management Company or an associate company.

Allocation of distributable amounts | Accumulation and/or Distribution (and/or carry forward)

Subscription/redemption procedures | Subscription and redemption orders are centralised daily at 14:30 p.m. and executed at the net asset value calculated on the basis of the day's closing market prices. The net asset value is calculated daily with the exception of French public holidays and/or days on which the French markets are closed (official calendar of Euronext Paris S.A.)

**Targeted retail investors** | This product is intended in particular for retail investors who (i) have basic knowledge and limited or no experience of investing in UCIs, (ii) want an investment consistent with the investment objective and the recommended holding period of the product, and (iii) are prepared to assume a medium to high level of risk on their initial capital. The conditions concerning accessibility of the product to US Persons are defined in the prospectus.

**Depositary** | CACEIS Bank France

Where and how to obtain information on the product | The prospectus, the annual reports and the most recent interim documents, as well as any other practical information, and in particular where to find the most recent price of the units are available on our website [www.lfde.com](http://www.lfde.com) or upon simple written request, free of charge, at: La Financière de l'Echiquier 53 avenue d'Iéna, 75116 Paris, France.

Where applicable, prospectuses are also available in English and KIDs in local languages depending on the country of sale.

## What are the risks and what could I get in return?

### Risk indicator

The synthetic risk indicator makes it possible to assess the level of risk of this product compared to other products. It indicates the likelihood that the product will incur losses in the event of market movements or if we are unable to pay you.

We have classified this product in risk class 5 out of 7, which is a medium to high risk class. In other words, the potential losses linked to the product's future results are medium to high, and if the situation deteriorates in the markets, it is likely that the ability to pay you will be affected.

### Performance scenarios I

The figures shown include all costs of the product itself as well as the fees due to your advisor or distributor.

What you will get from this product depends on future market performance. Future market trends may change and cannot be predicted precisely.

These figures do not take into account your personal tax situation, which may also affect the amounts you receive.

The unfavourable, moderate and favourable scenarios presented represent examples using the best and worst performance, as well as the average performance of the product (and the benchmark where applicable) over the past 10 years.

The stress scenario shows what you could get in extreme market situations. Markets could move very differently in the future.

Recommended holding period: 5 years

## What happens if La Financière de l'Échiquier is unable to pay out?

The product is set up as a separate entity to the Management Company. In the event of failure of the Management Company, the assets of the product held in custody by the depositary will not be affected.

In the case of failure of the depositary, the risk of financial loss for the product is reduced due to the legal segregation of the assets of the depositary and those of the product.

## What are the costs?

The person who sells this product to you or who provides you with advice about it may ask you to pay additional costs. If so, this person will inform you about these costs and show you the impact of these costs on your investment.

### Costs over time:

The tables show the amounts deducted from your investment in order to cover the different types of costs. They depend on the amount you invest, the time you hold the product, and the product's return.

The synthetic risk indicator is based on the assumption that you hold units for the entire recommended investment period, which is five years.

**The other materially relevant risks not taken into account in the calculation of the product's SRI are as follows:**

- Credit risk
- Concentration risk
- Currency risk

For more details regarding risks, please refer to the prospectus.

We assumed:

- that in the first year you will recover the amount you invested (annual return of 0%);
- that for other holding periods, the product performs as indicated in the moderate scenario;
- that EUR 10,000 is invested in the first year.

	If you exit after 1 year	If you exit after 5 years (Recommended holding period)
<b>Total costs</b>	<b>€448</b>	<b>€1,882</b>
<b>Impact of annual costs (*)</b>	4.53%	2.79% each year

(\*) It shows the extent to which costs reduce your return annually during the holding period. For example, it shows that if you exit at the end of the recommended holding period, your average annual return is 11.66% before costs and 8.86% after this deduction.

We may share the costs with the person selling the product to cover the services they provide to you. This person will inform you of the amount.
