## What is this product?

**Type** | Undertaking for Collective Investment in Transferable Securities - Société d'Investissement à Capital Variable (SICAV), incorporated in Luxembourg.

**Term** | The life of the product is 99 years. This term may be extended or the Fund can be dissolved early on the initiative of its Board of Directors. The terms and conditions for extension or dissolution are described in more detail in the articles of association of the SICAV.

**Objectives** | Echiquier Agenor Mid Cap Europe Fund is a dynamic subfund seeking long-term performance through exposure to European equity markets. The subfund seeks primarily to establish a position on the European leaders of tomorrow by investing in growth stocks.

The MSCI Europe Mid Cap Index Net Return (EUR) is a representative indicator of the management of the Echiquier Agenor Mid Cap Europe Fund. This index, used for information purposes only, represents the trend of all equities of European mid-cap companies. It is calculated in euros, with dividends reinvested. Investors are advised that the portfolio's composition may differ from that of the benchmark index.

The UCITS implements active and discretionary management based on a rigorous stock-picking process through an in-depth evaluation of the companies included in the portfolio. The subfund has a minimum exposure to European equities of 50% and a maximum exposure to non-European equities of 25%. The subfund is primarily exposed to European small and mid cap stocks, i.e. having a market capitalisation of less than €10 billion.

Following a first step of extra-financial analysis, the manager carries out a fundamental analysis of each issuer based on the following criteria:

- Analysis of the company's management
- Quality of its financial structure
- Visibility on its future earnings
- Analysis of the financial statements
- The growth prospects for its business
- The speculative nature of the security

The subfund reserves the right to invest up to 25% in fixed-income products. At the time of acquisition and for monitoring purposes over the life of the securities, credit risk is assessed on the basis of in-house research and analysis by La

Financière de l'Echiquier and using the ratings produced by agencies. Eligible securities are deemed investment grade, i.e., having a minimum Standard & Poor's rating of BBB- or equivalent or considered as such by the management team.

Financial derivative instruments, both traded on regulated markets or over the counter, can be used on an exceptional basis to:

- Hedge the portfolio against currency risk and against equity risk when the manager anticipates a significant deterioration in market performance;
- Occasionally expose the portfolio to equity risk during significant subscription transactions. The subfund does not, in any case, intend to implement a strategy of over-exposing the portfolio to equity risk.

Allocation of distributable amounts | Accumulation

Subscription/redemption procedures | Subscription and redemption orders are centralised daily at 10:00 a.m. and executed at the net asset value calculated on the basis of the day's closing market prices. The net asset value is calculated daily with the exception of French public holidays and/or days on which the French markets are closed (official calendar of Euronext Paris S.A.), and/or bank holidays in Luxembourg.

**Targeted retail investors** | This product is intended in particular for retail investors who (i) have basic knowledge and limited or no experience of investing in UCIs, (ii) want an investment consistent with the investment objective and the recommended holding period of the product, and (iii) are prepared to assume a medium level of risk on their initial capital. The conditions concerning accessibility of the product to US Persons are defined in the prospectus.

**Depository** | BNP Paribas Luxembourg

Where and how to obtain information on the product | The prospectus, the annual reports and the most recent interim documents, as well as any other practical information, and in particular where to find the most recent price of the units are available on our website [www.lfde.com](http://www.lfde.com) or upon simple written request, free of charge, at: La Financière de l'Echiquier 53 avenue d'Iéna, 75116 Paris, France.

## What are the risks and what could I get in return?

### Risk indicator

The synthetic risk indicator makes it possible to assess the level of risk of this product compared to other products. It indicates the likelihood that the product will incur losses in the event of market movements or if we are unable to pay you.

We have classified this product in risk class 4 out of 7, which is a medium risk class. In other words, the potential losses related to the product's future results are at a medium level and, if the situation deteriorates on the markets, it is possible that the ability to pay you will be affected.

### Performance scenarios I

The figures shown include all costs of the product itself as well as the fees due to your advisor or distributor.

What you will get from this product depends on future market performance. Future market trends may change and cannot be predicted precisely.

These figures do not take into account your personal tax situation, which may also affect the amounts you receive.

The unfavourable, moderate and favourable scenarios presented represent examples using the best and worst performance, as well as the average performance of the product (and the benchmark where applicable) over the past 10 years.

The stress scenario shows what you could get in extreme market situations. Markets could move very differently in the future.

## What happens if La Financière de l'Échiquier is unable to pay out?

The product is set up as a separate entity to the Management Company. In the event of failure of the Management Company, the assets of the product held in custody by the depositary will not be affected.

In the case of failure of the depositary, the risk of financial loss for the product is reduced due to the legal segregation of the assets of the depositary and those of the product.

## What are the costs?

The person who sells this product to you or who provides you with advice about it may ask you to pay additional costs. If so, this person will inform you about these costs and show you the impact of these costs on your investment.

### Costs over time:

The tables show the amounts deducted from your investment in order to cover the different types of costs. They depend on the amount you invest, the time you hold the product, and the product's return.

The synthetic risk indicator is based on the assumption that you hold the shares for the whole recommended investment period of five years.

**The other materially relevant risks not taken into account in the calculation of the product's SRI are as follows:**

- Liquidity risk
- Credit risk

For more details regarding risks, please refer to the prospectus.

We assumed:

- that in the first year you will recover the amount you invested (annual return of 0%);
- that for the other holding periods, the product performs as indicated in the moderate scenario;
- that EUR 10,000 is invested in the first year.

	If you exit after 1 year	If you exit after 5 years (Recommended holding period)
<b>Total costs</b>	<b>€540</b>	<b>€1,534</b>
<b>Impact of annual costs (*)</b>	5.47%	2.75% each year

(\*) It shows the extent to which costs reduce your return annually during the holding period. For example, it shows that if you exit at the end of the recommended holding period, your average annual return is 5.76% before costs and 3.01% after this deduction.

We may share the costs with the person selling the product to cover the services they provide to you. This person will inform you of the amount.
