Date of production of the key information document I 22/05/2026

What is this product?

Type I Undertaking for Collective Investment in Transferable Securities - Société d'Investissement à Capital Variable (SICAV), incorporated in Luxembourg.

Term I The life of the product is 99 years. This term may be extended or the Fund can be dissolved early on the initiative of its Board of Directors. The terms and conditions for extension or dissolution are described in more detail in the articles of association of the SICAV.

Objectives I Echiquier Artificial Intelligence is a dynamic subfund that seeks to outperform its benchmark, the MSCI World Index Net Total Return, over the recommended investment period, net of management fees.

The MSCI World Index Net Total Return. However, the subfund does not aim to replicate the benchmark's performance, as the portfolio's composition may differ significantly from that of the benchmark.

The UCITS implements active and discretionary management based on a rigorous bottom-up stock-picking process. The purchase and sale prices are determined for each equity selected based on a medium-term valuation. Consequently, some cases are subject to a very selective process based on quantitative and qualitative analysis. The subfund manager may also engage in trading activities with the aim of taking advantage of short-term market fluctuations. The investment strategy aims to select stocks that participate in the development of Artificial Intelligence or those that benefit from the adoption of these technologies. The strategy will also include stocks whose activity is indirectly linked to the Artificial Intelligence sector (ecosystem, infrastructure, etc.). Depending on the manager's convictions, the portfolio's construction can lead to a concentrated portfolio (fewer than 50 stocks). The subfund has a minimum exposure of 60% to international equity markets and/or equity markets of eurozone and emerging countries. Exposure to the equity markets of emerging countries will be limited to 30% of net assets. The subfund will be exposed to companies of all capitalisation sizes.

The fundamental analysis carried out by the management team is based on the following criteria:
- Analysis of the company's management
- Quality of its financial structure
- Visibility on its future earnings
- Analysis of the financial statements
- The growth prospects for its business
- The speculative nature of the security

The subfund has a minimum exposure of 60% to international equity markets and/or equity markets of eurozone and emerging countries. Exposure to the equity markets of emerging countries will be limited to 30% of net assets. The subfund will be exposed to companies of all capitalisation sizes.

The subfund reserves the right to invest up to 40% in fixed-income products. At the time of acquisition and for monitoring purposes over the life of the securities, credit risk is assessed on the basis of in-house research and analysis by La Financière de l'Echiquier and using the ratings produced by agencies. The eligible securities in question are deemed to be investment grade, i.e., having a minimum Standard & Poor's rating of BBB- or equivalent or considered as such by the management team.

Financial derivative instruments, both traded on regulated markets or over the counter, can be used on an exceptional basis to:
- Hedge the portfolio against currency risk and against equity risk when the manager anticipates a significant deterioration in market performance;
- Occasionally expose the portfolio to equity risk during significant subscription transactions. The fund does not, in any event, intend to implement a strategy of over-exposing the portfolio to equity risk.

Allocation of distributable amounts I Accumulation

Subscription/redemption procedures I Subscription and redemption orders are centralised daily at 10:00 a.m. and executed at the net asset value calculated on the basis of the day's closing market prices. The net asset value is calculated daily with the exception of French public holidays and/or days on which the French markets are closed (official calendar of Euronext Paris S.A.), and/or bank holidays in Luxembourg.

Targeted retail investors I This product is intended in particular for retail investors who (i) have basic knowledge and limited or no experience of investing in UCIs, (ii) want an investment consistent with the investment objective and the recommended holding period of the product, and (iii) are prepared to assume a high level of risk on their initial capital. The conditions concerning accessibility of the product to US Persons are defined in the prospectus.

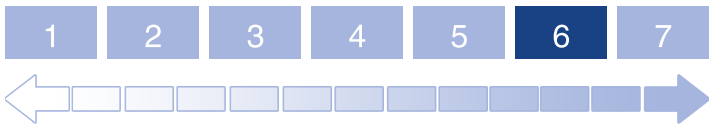
Depositary I BNP Paribas Luxembourg

Where and how to obtain information on the product I The prospectus, the annual reports and the most recent interim documents, as well as any other practical information, and in particular where to find the most recent price of the units are available on our website www.lfde.com or upon simple written request, free of charge, at: La Financière de l'Echiquier 53 avenue d'Iéna, 75116 Paris, France.

Where applicable, prospectuses are also available in English and KIDs in local languages depending on the country of sale.

What are the risks and what could I get in return?

Risk indicator



Lower risk *Higher risk*

The synthetic risk indicator makes it possible to assess the level of risk of this product compared to other products. It indicates the likelihood that the product will incur losses in the event of market movements or if we are unable to pay you.

We have classified this product in risk class 6 out of 7, which is a high risk class. In other words, the potential losses linked to the product's future results are high and, should the situation deteriorate on the markets, it is a highly probability that our ability to pay you will be affected.

⚠ The synthetic risk indicator is based on the assumption that you hold the shares for the whole recommended investment period of five years.

The other materially relevant risks not taken into account in the calculation of the product's SRI are as follows:
- Credit risk
- Concentration risk
- Currency risk

For more details regarding risks, please refer to the prospectus.

Performance scenarios I

The figures shown include all costs of the product itself as well as the fees due to your advisor or distributor.

What you will get from this product depends on future market performance. Future market trends may change and cannot be predicted precisely.

These figures do not take into account your personal tax situation, which may also affect the amounts you receive.

The unfavourable, moderate and favourable scenarios presented represent examples using the best and worst performance, as well as the average performance of the product (and the benchmark where applicable) over the past 10 years.

The stress scenario shows what you could get in extreme market situations. Markets could move very differently in the future.

Recommended holding period: 5 years
Example of an Investment: €10,000

Scenarios		If you exit after 1 year	If you exit after 5 years (Recommended holding period)
Minimum	There is no guaranteed minimum return. You may lose some or all of your investment.		
Stress	**What you might get back after costs**	**€1,050**	**€270**
	Average annual return	-89.53%	-51.47%
Unfavourable	**What you might get back after costs**	**€4,090**	**€9,590**
	Average annual return	-59.14%	-0.84%
Moderate	**What you might get back after costs**	**€11,300**	**€15,660**
	Average annual return	13.00%	9.39%
Favourable	**What you might get back after costs**	**€19,200**	**€31,610**
	Average annual return	92.03%	25.88%

The stress scenario shows what you could get in extreme market situations.
Unfavourable scenario: this type of scenario occurred for an investment in the product between 31/10/2021 and 31/10/2022 (1-year scenario) and between 31/12/2017 and 31/12/2022 (5-year scenario)
Moderate scenario: this type of scenario occurred for an investment in the product between 30/09/2022 and 30/09/2023 (1-year scenario) and between 31/08/2019 and 31/08/2024 (5-year scenario)
Favourable scenario: this type of scenario occurred for an investment in the product between 31/12/2019 and 31/12/2020 (1-year scenario) and between 31/10/2016 and 31/10/2021 (5-year scenario)

What happens if La Financière de l'Échiquier is unable to pay out?

The product is set up as a separate entity to the Management Company. In the event of failure of the Management Company, the assets of the product held in custody by the depositary will not be affected.
In the case of failure of the depositary, the risk of financial loss for the product is reduced due to the legal segregation of the assets of the depositary and those of the product.

What are the costs?

The person who sells this product to you or who provides you with advice about it may ask you to pay additional costs. If so, this person will inform you about these costs and show you the impact of these costs on your investment.

Costs over time:

The tables show the amounts deducted from your investment in order to cover the different types of costs. They depend on the amount you invest, the time you hold the product, and the product's return.

We assumed:

- that in the first year you will recover the amount you invested (annual return of 0%);
- that for other holding periods, the product performs as indicated in the moderate scenario;
- that EUR 10,000 is invested in the first year.

	If you exit after 1 year	If you exit after 5 years (Recommended holding period)
Total costs	**€484**	**€1,792**
Impact of annual costs (*)	4.90%	2.69% each year

(*) It shows the extent to which costs reduce your return annually during the holding period. For example, it shows that if you exit at the end of the recommended holding period, your average annual return is 12.08% before costs and 9.39% after this deduction.
We may share the costs with the person selling the product to cover the services they provide to you. This person will inform you of the amount.

Composition of costs:

One-off costs at entry or exit		If you exit after 1 year
Entry costs	We will not charge an entry fee for this product, but the person who sells you the product may apply subscription fees of 3.00% - This is the maximum amount you will pay. The person selling the product will inform you of the actual fees.	Up to EUR 300
Exit costs	We will not charge an exit cost, but the person who sells the product can do so.	EUR 0
Recurring costs charged each year		
Management fees and other administrative and operating expenses	1.75% of the value of your investment per year. This estimate is based on actual costs over the past year.	EUR 170
Transaction costs	0.15% of the value of your investment. This is an estimate of the costs incurred when we buy and sell the investments underlying the product. The actual amount notably varies according to the quantity we buy and sell.	EUR 14
Incidental costs taken under specific conditions		
Performance fees and incentive fees	15% including taxes of the fund's outperformance, net of fixed management fees, relative to its benchmark index, provided the fund's performance is positive	EUR 0

How long should I hold it and can I take money out early?

Recommended holding period: a minimum of five years defined on the basis of the investment strategy and the product's risk, remuneration and cost characteristics.
Investors may request the total or partial redemption of their units at any time during the life of the product, without any fees being charged.
A redemption cap (or "Gates") and Swing Pricing mechanism may be implemented by the management company. The operating procedures are described in the prospectus.

How can I complain?

For any complaint concerning the product, investors may contact their advisor or the Management Company at the following address: La Financière de l'Échiquier – 53 avenue d'Iéna, 75116 Paris, France, or by email to contact@lfde.com
Firstly, we invite you to consult the complaints handling procedure available on the company's website www.lfde.com for more information.
