ECHIQUIER POSITIVE IMPACT EUROPE - A Share (ISIN: FR0010863688)

Subfund of the Echiquier Impact mutual fund (SICAV) managed by La Financière de l'Echiquier

Objectives and investment policy

Echiquier Positive Impact Europe seeks performance over the long-term, net of management fees, through exposure to European equity markets and via companies whose business activities provide solutions to the challenges of sustainable development and which stand out for the quality of their governance and social and environmental policies. The objective of the sub-fund is combined with an extra-financial approach incorporating environmental, social, and governance (ESG) criteria and an impact score. The management team seeks to minimise the risks and capture opportunities by investing in companies that provide solutions to the challenges of sustainable development and which have good social, environmental and governance practices. The extra-financial objective also aims to help companies move forward in their contribution to sustainable development challenges and ESG issues by engaging in dialogue with them on a regular basis and sharing with them specific areas of improvement monitored over time.

In addition, investors are reminded that their investment in the subfund does not have any direct impact on the environment and the company, but that the subfund seeks to select and invest in companies that meet specific criteria defined in the management strategy.

The MSCI EUROPE NR index is a representative benchmark for the management of Echiquier Positive Impact Europe. This benchmark is used solely for information purposes. It reflects the trends on the equity markets of Europe's most developed countries. It is calculated in euros, with dividends reinvested. Investors are advised that the portfolio's composition may differ from that of the benchmark index.

The UCITS implements an active and discretionary management based on a rigorous stock picking process, involving direct meetings with the companies in which the subfund invests. An extra-financial analysis conducted internally rounds out the financial analysis. Echiquier Positive Impact Europe focuses on selecting the top-rated issuers from an extra-financial perspective within its investment universe ("best in universe" approach), which includes European stocks of all market capitalisations that have an ESG rating. The extra-financial criteria used

will be environmental (environmental policy, product impact, etc.), social (HR policy, relations with customers, suppliers and civil society, etc.) and governance (management team, checks and balances, etc.)

Echiquier Positive Impact Europe is consistently exposed between 60% and 100% to European equities (European Union, European Free Trade Association and United Kingdom). The maximum exposure to small and mid-caps will be 60%. However, for the subfund to be eligible for the French regulated equities savings scheme (PEA), 75% of its assets are invested in European equities.

The UCITS reserves the right to invest a maximum of 10% in fixed-income products. At the time of acquisition and for monitoring purposes over the life of the securities, credit risk is assessed on the basis of in-house research and analysis by La Financière de l'Echiquier and using the ratings produced by agencies. The eligible securities in question are deemed to be investment grade, i.e., having a minimum Standard & Poor's rating of BBB- or equivalent or considered as such by the management team.

A portion of the management fees are paid to Fondation Financière de l'Echiquier under the auspices of Fondation de France.

Risk and reward profile

This indicator represents the historical annual volatility of the UCITS over a 5-year period.

The UCITS's risk indicator reflects the exposure of its net assets to its investment universe.

Historical data such as that used to calculate the synthetic risk indicator may not provide a reliable indication of the future risk profile of the UCITS.

The risk category associated with this UCITS is not guaranteed and may change over time.

The lowest category does not mean "risk-free".

Significant risk(s) for the UCITS not included in this indicator:

Credit risk: Credit risk is the risk of an issuer's credit rating being downgraded or of it defaulting. The value of debt securities or bonds in which the Fund invests may fall, causing the Fund's net asset value to decline.

Guarantee: The capital initially invested is not guaranteed.
