ECHIQUIER WORLD EQUITY GROWTH - G Share (ISIN: FR0010868174)

Subfund of the Echiquier mutual fund (SICAV) managed by La Financière de l'Echiquier

Objectives and investment policy

The Echiquier World Equity Growth fund is classified as an "International equities" UCITS. It is a dynamic subfund which seeks long-term performance via exposure to growth stocks in international markets. The fund invests in stocks with confirmed global leadership positions in their industry.

The MSCI All Country World Index can be used as an ex-post benchmark for its performance. This index is used solely for information purposes and is calculated in euros, dividends reinvested, by MSCI. It includes 50 countries, including developed and emerging countries. Investors are advised that the portfolio's composition may differ from that of the benchmark index.

The UCITS implements active and discretionary management based on a rigorous stock-picking process. The investment strategy is intended to select stocks which provide the best current or potential growth, which are leaders in markets of significant size in all regions of the world.

Echiquier World Equity Growth has a 60% exposure, at least, to the equities of the eurozone and/or international and emerging markets. The fund's assets consist primarily of large caps. However, the fund reserves the right to invest up to 10% in small and mid-caps.

The UCITS reserves the right to invest a maximum of 40% in fixed-income products. At the time of acquisition and for monitoring purposes over the life of the securities, credit risk is assessed on the basis of in-house research and analysis by La Financière de l'Echiquier and using the ratings produced by agencies. The eligible securities in question are deemed to be investment grade, i.e., having a minimum Standard &

Poor's rating of BBB- or equivalent or considered as such by the management team.

Financial derivative instruments, both traded on regulated markets or over the counter, can be used on an exceptional basis to:

- Hedge the portfolio against currency risk and against equity risk when the manager anticipates a significant deterioration in market performance;
- Occasionally expose the portfolio to equity risk during significant subscription transactions. The fund does not, in any event, intend to implement a strategy of over-exposing the portfolio to equity risk.

Furthermore, the portfolio management team systematically includes an extra-financial approach in building the portfolio, although extra-financial criteria are not a determining factor in investment decisions.

Recommended investment period: This fund may not be suitable for investors who plan to withdraw their money within 5 years.

Allocation of income: Accumulation.

Deadline for centralising subscription/redemption orders: Investors can make a request for redemption every business day. Redemption requests are centralised each market trading day before 12 p.m. (Paris time) with our centralising agent BNP Paribas SA and executed on the net asset value calculated on the closing price on the day they are centralised.

Frequency of valuation: The net asset value is calculated daily, except for days when the Paris stock market is closed and on official French public holidays.

Risk and reward profile

This indicator represents the historical annual volatility of the UCITS over a 5-year period.

The UCITS's risk indicator reflects the exposure of its net assets to its investment universe.

Historical data such as that used to calculate the synthetic risk indicator may not provide a reliable indication of the future risk profile of the UCITS.

The risk category associated with this UCITS is not guaranteed and may change over time.

The lowest category does not mean "risk-free".

Significant risk(s) for the UCITS not included in this indicator:

Credit risk: Credit risk is the risk of an issuer's credit rating being downgraded or of it defaulting. The value of debt securities or bonds in which the Fund invests may fall, causing the Fund's net asset value to decline.

Guarantee: The capital initially invested is not guaranteed.

Charges

The charges and fees are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry fees	3.00 %	The percentage indicated is the maximum that can be deducted from your capital before it is invested.
Exit fees	None	In some cases, the investor may pay less. Investors can obtain the actual entry and exit fees from their advisor or from their distributor.

Fees deducted by the UCITS over a year

Ongoing charges	1.81 %	Due to an exceptional three-month financial year ended 31 March 2022, ongoing charges are based on an estimate of the yearly rate (management fees and turnover commissions). They exclude performance fees and intermediation fees. This percentage may vary from one year to the next.
