

INVITATION

This event is free of charge for professionals.

Paris Fund Industry is a collective initiative, coordinated by the **French Asset Management Association (AFG)**, which gathers the whole Paris-based investment fund value chain, i.e. asset managers, custodians, lawyers, auditors, data providers, academics, Paris-Europlace, the French regulator (the AMF) and the French Treasury.

Together with AFG, Paris Fund Industry presents

Transparency, Innovation and Risk Management

as a **forum providing expertise** to optimize your future investment strategies. This **1st event in Germany** will highlight how to find dynamic players along the whole asset management and fund value chain and how to stay ahead of the curve with innovative investment opportunities.

Join a host of high-ranking management companies, French boutiques and service providers to strike the right balance between transparency, innovation and risk management. This forum will also give you the opportunity to **meet face to face with French asset managers, service providers and custodians** through personal meetings.

In addition, the AMF will present its views on how Paris is dealing with the changing landscape of European regulation.

The full program and the online registration are available on <http://forums.parisfundindustry.com>
